Contextualized Social Studies Module

Introduction	iii
Module Outline	vi
Contextualized Social Studies Module	1
Activities/Resources for Outcomes	7
Outcome #1: Historical Events	8
Outcome #2: Weather's Impact	·10
Outcome #3: Natural Resources	14
Outcome #4: Interstate Route Planning	16
Outcome #5: Teamsters Union	18
Outcome #6: Labor Unions	20
Outcome #7: Labor & Politics	22
Outcome #8: Workplace Health & Safety	25
Outcome #9: Government & Safety	27
Outcome #10: Globalization in Transportation	37
Outcome #11: Cause & Effect of Globalization	39
Outcome #12: What is Lean?	43
References	49
Standards for Outcomes	52

FOUNDATIONS FOR DESIGN

- ✓ Instruction emphasizes learning by doing through projects and simulations; therefore, the instructor is a facilitator or learning coach.
- ✓ Each module emphasizes communication, teamwork, and critical thinking.
- ✓ Content is contextualized for transportation, distribution, and logistics
 (TDL) professions and their programs of study.
- ✓ Learning outcomes often require learners to meet and interact with academic and TDL professionals, engage in collaborative and individual projects involving authentic materials and resources, visit TDL and academic facilities, and complete documents and writing tasks for career paths with the guidance of learning facilitators.
- ✓ Specific units within modules may serve as precursors for additional units within the module. Many lessons and units may be repeated and expanded from one module to another.
- ✓ Self-advocacy and continual self-assessment and self-monitoring are inherent to each module while students must be introduced to, required to meet with, and encouraged to consult with the program coordinator as well as academic and employment professionals.
- ✓ Site visits to TDL and learning facilities, guest speakers, and conferences with employment and academic professionals are integral to the relevance and value of the program for students.

ASSUMPTIONS:

✓ Each agency or instructor who may use these modules or this program will adapt instructional strategies, content level of difficulty, learning activities and projects to meet the needs of the program's target population and adult learners of lower and higher academic levels.

- ✓ Referenced resources, relevant Internet links, learning activities (created, suggested, attached, or referenced) will be used, modified, or omitted based on student need and restraints of class time and resources.
- ✓ This curriculum will work in established internal partnerships within the
 academic community as well as external partnerships/relationships in the
 employment community.
- ✓ Units and lessons will be adapted to fit within varying contact hours of a program.

Module Description: The Contextualized Social Studies Module is designed to provide students with an understanding of the history and development of TDL around the world, preparing them for the TDL workplace and/or post-secondary education.

i-Pathways Alignment with the statewide TDL Curriculum: The lessons identified in this document have connections with both i-Pathways and the intended learning objectives identified in the statewide TDL Curriculum. The i-Pathways lessons can be used to build background knowledge, reinforce content, or provide learners with additional practice in a specific skill development.

Module Objectives:

Students will:

- Demonstrate an understanding of the role of supply and demand
- Demonstrate an understanding of the role of science and technology in TDL
- Demonstrate an understanding of the history and current role of labor unions in TDL
- Demonstrate an understanding of workplace safety and government safety standards
- Demonstrate an understanding of the role of globalization in TDL

Learning Outcomes

Students will:

- Investigate historical events that have shaped TDL
- Write about natural events that influence TDL markets
- Determine how natural resources affect transportation
- Describe the impact of technological advances on TDL
- Research and present information on labor unions
- Serve as a management or union member to discuss contract negotiations
- Summarize workplace safety guidelines at a TDL facility
- Research and report on government workplace safety standards and codes
- Define and discuss the role of globalization on TDL
- Role-play work tasks to demonstrate the importance of lean logistics

Methods of Instruction

- Lecture
- Small and large group discussions
- Role playing
- Group presentations
- Online research
- Guest speakers

Methods for Evaluating Student Performance

- Individual and group presentations
- Written and oral summaries
- Peer evaluations
- Teacher designed rubrics
- Teacher observation logs

Module Overview

- A. Historical events that have shaped TDL
- B. The role of science and technology in TDL
- C. The history and current role of labor unions
- D. Workplace safety in TDL
- E. The role of globalization in TDL

Module Outline

- 1. Historical events that have shaped TDL
 - A. The impact of various influences on the three categories of TDL (U.S. History, World History, Geography, Economics)
 - B. History of Logistics and Supply Chain Management (U.S. History, World History, Economics)
- 2. Role of science and technology in TDL
 - A. Effect of natural influences on TDL (U.S. History, World History, Geography, Economics)
 - B. Effect of natural resources on TDL (Geography, Economics)
 - C. Geographical and technological factors that influence TDL (U.S. History, World History, Economics, Civics and Government)
- 3. History and current role of labor unions in TDL
 - A. Teamsters Union (Civics and Government, World History, U.S. History)
 - B. Collective bargaining (Economics)
 - C. Labor unions in politics (U.S. History)
- 4. Workplace safety
 - A. Workplace safety guidelines of a local TDL facility (Civics and Government)
 - B. The government's role in enforcing workplace safety standards (U.S. History, Civics and Government)
- 5. Globalization in TDL
 - A. Globalization (Economics)
 - B. Causes and effects of globalization (U.S. History, World History, Geography, Economics, Civics and Government)
 - C. Lean logistics as a response to globalization (Economics)
